This manual implements AFD 10-2, *Readiness*. It establishes and describes the Air Force Operational Reporting System (AFOREPS). **PART 1** introduces the general concept of the AFOREPS and covers reporting policies and command reporting responsibilities. **PART 2** deals with Operational Status Reports. It explains the purpose and gives instructions for preparing and submitting these reports. **PART 3** covers Operational Support Monitoring Reports. It explains the purpose and gives instructions for preparing and submitting these reports. Send recommended changes, additions, deletions, or new reports and any conflict or duplication of other reports to HQ USAF/XOOOO, 1480 Air Force Pentagon, Washington, D.C. 20330-1480. Commands should supplement this Air Force Manual (AFMAN) instead of repeating instructions in separate directives. Send HQ USAF/XOOOO one copy of directives (to include drafts) that support or implement the AFOREPS. Waiver authority for this manual is HQ USAF/XOO.

SUMMARY OF REVISIONS

The updates in this IC are for **Chapter 3**, Event/Incident Reports (OPREP-3). Changes include the addition of Rule 14N (NEXRAD Outage), adding a requirement to establish host-tenant agreements for OPREP-3 reporting, the addition of four (4) new minimum essential addressees (MEAs), and MEA modifications for several rules.

GENERAL CONCEPTS, POLICIES, AND RESPONSIBILITIES

Chapter 1

INTRODUCTION TO AIR FORCE OPERATIONAL REPORTING SYSTEM (AFOREPS)

1.1. Concept of the AFOREPS. The set of reports that make up the AFOREPS provide HQ USAF and intermediate commands the information necessary for timely operational decisions. Major commands (MAJCOM) will integrate their reporting systems into AFOREPS, thereby allowing easy lateral and vertical transfer of information.

1.2. Reporting Instructions and Principles. The following instructions and principles apply to the AFOREPS:

1.2.1. AFOREPS reports draw information from numerous sources (e.g., personnel, materiel, equipment status, operations and logistics planning, situation monitoring, and intelligence) and give decisionmakers a concise picture of events. The main criterion for inclusion in the AFOREPS system is that the report is essential for command and control of aerospace forces.

1.2.2. Commands with both an Air Force and a joint or combined reporting requirement (e.g., air component commands) should use the AFOREPS report if possible and address to both chains instead of separate reports.

1.2.3. Annually, MAJCOMs will review established operational reports to simplify or eliminate reports. They review new requirements to determine operational necessity or whether other existing sources can accommodate them.

1.3. Command Reporting Responsibilities. To identify and streamline host-tenant responsibilities, host units will establish host-tenant agreements that meet the needs of both organizations. Commanders, whose organization operates the command post (1C3s functioning as a C2 agency (including AMCCs)), are responsible for timely and accurate reporting for all assigned or attached units, as well as units staging through their command. The agreement will establish procedures to ensure the installation commander is made aware of all events/incidents occurring on or affecting his/her installation. Agreements must, as a minimum, adhere to the following stipulations.

1.3.1. Ensure established procedures do not delay the submission of the OPREP-3 report.

1.3.2. Outline specific OPREP-3 responsibilities of host and tenant command posts/units (including who will submit the reports), with emphasis on timely and accurate report submission. IAW the agreement, the commander who operates the command post submitting the report will have approval/release authority for all OPREP-3 reports.

1.3.2.1. The commander, whose organization operates the installation command post, will develop procedures to ensure timely submission of tenant unit reports.

1.3.2.1.1. The installation command post will submit **ALL** OPREP-3 reports, including PINNACLE, BEELINE, and HOMELINE reports. This includes reports involving tenant unit assets.

1.3.2.1.2. Commanders of tenant units which belong to a MAJCOM other than the MAJCOM which owns the installation command post, have the sole authority to determine whether an incident or event occurring within their unit meets their MAJCOM's OPREP-3 HOMELINE reporting criteria. Tenant unit commanders have the sole responsibility for determining whether to report the incident. This decision will be made IAW their MAJCOMs guidance for HOMELINE reporting. The installation commander has final approval authority for all other OPREP-3 reports.

1.3.2.1.2.1. The tenant unit commander will, establish procedures to immediately notify the installation command post when an incident is determined to meet HOMELINE reporting criteria. The installation command post will submit the voice and record copy report. AMC units operating an AMCC will NOT submit OPREP-3 reports.

1.3.2.1.2.2. The installation command post will notify their commander of the situation and that an OPREP-3 HOMELINE report is being submitted in accordance with the tenant unit's reporting criteria.

1.3.2.1.3. The installation commander, or the commander, whose organization operates the installation command post, will not interfere with the tenant unit commander's decision to submit a HOMELINE report.

1.3.2.1.3.1. The installation commander, or commander whose organization owns the command post, will not alter the tenant unit commander's report, nor will the report be delayed for "consultations."

1.3.2.1.4. The installation commander will be notified of a tenant units OPREP-3 report to comply with standard protocol and to ensure he or she is aware of events/incidents occurring on or affecting his or her installation.

1.3.2.1.5. Installation and tenant unit commanders will develop procedures to ensure OPREP-3 reports are coordinated, without significantly delaying the report, with the installation commander, and other affected commanders, prior to submitting the report.

1.3.3. If the installation has one or more tenant(s) but only one command post, that host unit will establish the agreement, and the command post will submit all OPREP-3 reports.

1.3.3.1. Tenant unit commanders assigned to a different MAJCOM than the host unit, have the sole responsibility to report an incident or event that meets OPREP-3 reporting criteria.

1.3.3.2. If the host command post submits OPREP-3s for the tenant, the host unit will not interfere with, alter, or delay the tenant unit's report.

1.3.4. Ensure OPREP-3 reports have all required addresses, including the host and tenant MAJCOM command centers, and affected units and MAJCOMs.

1.3.5. Provide copies of the agreement to the host and tenant MAJCOMs IAW MAJCOM procedures. MAJCOMs will maintain a current copy of the agreement on file.

1.3.6. MAJCOMs, direct reporting units (DRUs), field operating agencies (FOAs), Air Force Reserve Command (AFRC), and Air National Guard Readiness Center (ANGRC) personnel will develop instructions to ensure timely and accurate OPREP-3 reporting.

1.3.6.1. Geographically Separated Units (GSUs) that do not fit under any of the above criteria will comply with parent MAJCOM guidance IAW this manual.

1.3.7. Air component commanders of unified commands and/or JTFs will ensure compliance through their air component command centers and de-conflict with unified/JTF command directives.

1.4. Authority and References:

1.4.1. Authority. This manual includes the requirements of the various documents of the Joint Reporting System. Air Force units use it as the primary source for reporting instructions. Later chapters identify reference materials for specific reports.

1.4.2. Emergency Status Codes (ESC). These codes serve as a guide for reporting under emergency conditions. Each chapter reflects the ESC assigned to required report. AFI 37-124, *Management and Control of Information Reports' Requirements* (formerly AFR 4-38) prescribes ESC.

1.4.2.1. C1 - Continue reporting, priority. Submit data requirements assigned this category as pre-scribed or by any means to ensure arrival on the established due dates.

1.4.2.2. C2 - Continue reporting, normal. Submit data requirements in this category as prescribed, or as soon as possible after submission of priority reports.

1.4.2.3. C3 - Continue reporting, delayed. Submit data requirements as prescribed, but they may be delayed to allow the submission of higher precedence reports. Submit by non-electronic means if possible.

1.4.2.4. D - Discontinue reporting. Immediately discontinue reporting data requirements.

1.4.3. **Chapter 5** is exempt from report licensing as defined in AFI 37-124. HQ USAF Report Control Symbol (RCS) numbers follow the title of each report.

Chapter 2

GENERAL REPORTING INSTRUCTIONS

2.1. Security Classification and Downgrading Instructions. AFI 31-401, *Information Security Program Management* (formerly AFR 205-1), provides security classification and downgrading instructions.

2.1.1. Classify reports indicating unit combat readiness status according to AFI 10-201, *Status of Resources and Training System (SORTS)*, (formerly AFR 55-15).

2.1.2. Classify reports containing:

2.1.2.1. Information on a combat loss or damage or discussing combat mission results a minimum of SECRET.

2.1.2.2. A complete inventory of nuclear weapons of one or more units a minimum of SECRET.

2.1.2.3. Information on the deployment of combat aircraft, units, or personnel according to the appropriate deployment plans.

2.1.2.4. Unit names and locations associated with a plan according to security instructions.

2.2. Transmitting Reports During Combat or Combat Related Operations. When combat or combat-related operational requirements make speed of delivery paramount, military commanders may modify transmission of classified information as necessary to meet local conditions. (When so doing, commanders will cite in the message "CJCSI 3150.03, Enclosure A, paragraph 4a," as the authority.)

2.3. Flagword JOPREP JIFFY. The flagword JOPREP JIFFY identifies electrically transmitted command post-to-command post messages and operational reports, and notifies communications centers to route a message directly to the command and control facility. The flagword does not indicate a precedence for transmission within communications channels.

2.4. Operating in a Degraded Communications Environment. HQ USAF and MAJCOMs may suspend the submission of selected reports. MAJCOMs will advise HQ USAF immediately of any suspended AFOREPS reports.

2.5. Report Formats. Prepare reports using the specific formats and content information available in AFP 102-2, volume I, and as supplemented by this manual. When AFP 102-2, volume I, does not contain a specific format for the report, use the General Administration (GENADMIN) format with the report's name as the SUBJECT.

2.6. Correction of Reports . Transmit a *Message Change Report* according to AFP 102-2, volume I.

PART 2

OPERATIONAL STATUS REPORTS

Chapter 3

EVENT/INCIDENT REPORT (OPREP-3)(RCS: HAF-XOO(AR)7118)

3.1. Subject and Purpose. OPREP-3 reports use command and control channels to notify commanders immediately of any event or incident which may attract international, national, US Air Force, or significant news media interest. They do not replace the requirement for more detailed reports such as the *Aircrew/Aircraft Loss Report (LOSREP)*, the *Commander's Situation Report (SITREP)*, and accident or incident investigation reports. Submitting an OPREP-3 report neither changes, nor substitutes for, any report required by other directives. Conversely, submit the applicable OPREP-3 regardless of whether or not the event is being reported through other channels.

3.2. Reference Materials . Chairman Joint Chiefs of Staff Instruction (CJCSI) 3150.03.

3.3. Report Categories. OPREP-3 reports categorize events or incidents according to their nature. Flag-words associated with each category aid prompt transmission, processing, and distribution of the reports by alerting people to their importance. The following flagworded reports make up the OPREP-3 system.

3.3.1. PINNACLE (OPREP-3P) reports provide information to the National Command Authorities, National Military Command Center (NMCC), and appropriate commanders on any incident or event of national level interest which does not require notification using other OPREP-3 reports. This report is not restricted to operational information and covers a wide range of occurrences with actual or potential international repercussions or which could seriously change current operations. Consider an event or incident reportable if it:

- 3.3.1.1. Generates a higher level of military action.
- 3.3.1.2. Causes a national reaction.
- 3.3.1.3. Affects international relationships.
- 3.3.1.4. Causes immediate widespread coverage in news media.
- 3.3.1.5. Is clearly against the national interest.
- 3.3.1.6. Affects current national policy.

NOTE: Submit an OPREP-3 PINNACLE report if there is any doubt an event or incident is, or could be, of interest to the White House, Department of Defense (DoD), the Joint Staff, or news media.

3.3.2. PINNACLE NUCFLASH (OPREP-3PNF) reports the actual or possible detonation of a nuclear weapon which risks the outbreak of nuclear war. This report has the highest precedence in the OPREP-3 reporting structure. Report any of the following:

- 3.3.2.1. Accidental, unauthorized, or unexplained nuclear detonation or possible detonation.
- 3.3.2.2. Accidental or unauthorized launch of a nuclear-armed or nuclear-capable missile in the direction of, or having the capability to reach another nuclear-capable country.

3.3.2.3. Unauthorized flight of, or deviation from, an approved flight plan by a nuclear armed or nuclear-capable aircraft with the capability to penetrate the airspace of another nuclear-capable country.

3.3.2.4. Detection of unidentified objects by a missile warning system or interference (experienced by such a system or related communications) that appears threatening and could create a risk of nuclear war.

3.3.3. PINNACLE FRONT BURNER (OPREP-3PFB) reports any pre-conflict occurrence having the potential of escalating into a contingency or general war situation, such as armed attack on or harassment of US forces.

3.3.4. PINNACLE BROKEN ARROW (OPREP-3PBA) reports an accidental event involving nuclear weapons or nuclear components but does not create the risk of nuclear war. Report the following:

3.3.4.1. Nuclear detonation.

3.3.4.2. Non-nuclear detonation or burning of a nuclear weapon.

3.3.4.3. Radioactive contamination.

3.3.4.4. Jettisoning of a nuclear weapon or nuclear component.

3.3.4.5. Public hazard, actual or implied.

3.3.5. PINNACLE EMPTY QUIVER (OPREP-3PEQ) reports the seizure, theft, or loss of a nuclear weapon or nuclear component.

3.3.6. PINNACLE EMERGENCY DISABLEMENT (OPREP-3PED) reports those operations involving the command disablement or nonviolent disablement of a nuclear weapon.

3.3.7. PINNACLE EMERGENCY EVACUATION (OPREP-3PEV) reports the evacuation of nuclear weapons.

3.3.8. BENT SPEAR (OPREP-3BS) reports those incidents involving nuclear weapons that are of significant interest but are not categorized as *PINNACLE NUCFLASH OR PINNACLE BROKEN ARROW*.

3.3.9. FADED GIANT (OPREP-3FG) reports nuclear reactor and or radiological accidents and incidents. While these events do not involve nuclear weapons, they are of vital interest to all levels of government.

3.3.10. BEELINE (OPREP-3B) reports any incident or event where Air Force level interest is indicated but not requiring *PINNACLE-level OPREP-3* reports. Although the report normally remains within US Air Force channels, commanders may add other addressees, as appropriate to avoid duplicate reporting. HQ USAF may make *BEELINE* information available to agencies outside the Air Force (e.g., NMCC, State Department) based on the situation.

3.3.11. HOMELINE (OPREP-3H) reports incidents or vents which do not merit HQ USAF attention but which are of interest to the MAJCOM. Although these reports are not addressed to HQ USAF, they are part of the AFOREPS program and will use the same basic format. MAJCOMs determine specific reporting requirements and procedures for the *HOMELINE* report. ANG units report *HOMELINE*-level information to ANG Readiness Center, unless federalized or mobilized.

3.3.12. OPREP-3 CRESCENT EDGE (OPREP-3CE). Used to immediately notify NMCC, AFOC, or MAJCOMs via secure communications of significant activities involving Special Access Programs (SAPs) operating under the auspices of AFI 16-701. Affected unit command posts will submit voice reports by secure means directly to the appropriate level (i.e. AFOC for BEELINE reports) and back brief intermediate commands as appropriate.

3.3.12.1. Subject and Purpose. The Crescent Edge Report allows units operating SAPs to use the operational reporting channel to advise their program managers of events or incidents that meet OPREP-3 reporting criteria. The Crescent Edge Report is the single reporting channel for all SAP units reporting incidents to higher headquarters. Crescent Edge Reports will be forwarded through command post channels to MAJCOM Command Centers, AFOC, and NMCC as required.

3.3.12.2. Include the following information in the report: The time the unit initiated the report, the name, phone number, and office symbol of both the person initiating the report and the POC at higher headquarters.

3.3.12.3. The unit with the SAP, not the command post, initiates crescent Edge reports. The initiating unit will notify the command post they have a report. No program names or incident details will be included, and command post personnel will not press for details. The command post will assign a report number and send the report up the chain to the appropriate level. No other action is required by the command post.

3.3.12.4. A Crescent Edge Report will be submitted when an authorized individual from the SAP unit determines an incident meets reporting criteria as established in [Table 3.1](#). The reporting unit will determine the level the report will be submitted to.

3.3.12.4.1. It is the unit's responsibility, not the command post or Wing Commander's, to determine the level of the report.

3.3.12.4.2. The parent MAJCOM, AFOC, and NMCC (as appropriate) are the only addressees permitted on record Crescent Edge reports.

3.3.12.4.3. The Crescent Edge report is unclassified but voice notifications will be made using secure telephones. Record copy reports will be transmitted Encrypt for Transmission Only (EFTO) using FLASH or IMMEDIATE precedence.

3.3.13. (Added) OPREP-3 WHITE PINNACLE (OPREP-3WP). OPREP-3WP is an unclassified exercise flagword used in exercise messages that contain simulated, time-critical information from operating forces to the NMCC. This exercise is used to measure the timeliness of the OPREP-3 PINNACLE report. The NMCC will promulgate recommended monthly WHITE PINNACLE requirements to unified commands. Unified commands will designate the units to receive the exercise message and select specific exercise start times. Specific guidance is governed by CJCSM 3150.03A (Joint Reporting Structure Event and Incident Reports (1 Nov 00)). This exercise involves only unified commands, units subordinate to unified commands, and the NMCC

3.4. The OPREP-3 Reports Matrix. The OPREP-3 Reports Matrix ([Table 3.1](#)) is a quick reference guide to assist users in determining the type of report to submit. **The matrix provides broad guidance and is not all-inclusive.** Judgement on the part of local commanders is essential to proper reporting. Base the level of the report on whether or not the event or incident will attract national level interest (PINNACLE) or is only of interest to HQ USAF (BEELINE) or a MAJCOM (HOMELINE). Refer to Figures

[Figure 3.1.](#), [Figure 3.2.](#), [Figure 3.3.](#), [Figure 3.4.](#), and [Figure 3.5.](#) for additional guidance for report content.

3.5. Command Responsibilities . Due to the time sensitivity of OPREP-3 information, report each event or incident as promptly and accurately as possible. If there is doubt, report the event or incident. Units at all levels will develop procedures to quickly obtain and report the key elements of an OPREP-3 report. Since installations normally host units assigned to a different MAJCOM, notification and coordination procedures between the units must be agreed upon. Commanders should ensure all agencies involved in the OPREP-3 process receive OPREP-3 training at least quarterly.

3.5.1. Command posts will thoroughly brief commanders on all event/incident reporting criteria for each event/incident that requires reporting IAW this manual. Realizing the commander or designated alternate has complete authority to release any report, the command post is responsible for providing all necessary information to commanders to facilitate an informed decision on the release of OPREP-3 reports within the time constraints established by this manual.

3.6. Report Submission. The lowest level of command having knowledge of an event or incident will submit the OPREP-3 report. When necessary the AFOC may request, through the MAJCOM, that a unit report an event/incident because that unit is the closest to where the event/incident occurred.

3.6.1. Initial Voice Reports: Air Force units will submit voice reports to the appropriate command center via telephone conference. OPREP-3 PINNACLE and BEELINE voice reports will be submitted using FLASH or IMMEDIATE precedence. The goal is to initiate initial voice reports within 15 minutes of an event or incident. Due to the extremely time sensitive nature of the PINNACLE NUC-FLASH report, transmit these voice reports no later than 5 minutes after learning of the event. Voice reports are required on all initial, follow-up, and final OPREP-3 reports.

3.6.1.1. Normal conference procedures will be unit to MAJCOM to AFOC for BEELINE or Service-level reports (Bent Spear and Faded Giant). Because the audible quality of most patching systems degrade with every added conferee, the AFOC will patch the NMCC into the conference for PINNACLE reports. Additional conferees can be added as appropriate by MAJCOMs or lower echelons; however, when adding additional conferees ensure the AFOC is the last conferee added to the conference. MAJCOM command centers will screen HOMELINE reports for possible BEELINE criteria. The AFOC will screen BEELINE reports for possible PINNACLE criteria. When in doubt, consult with the AFOC.

3.6.1.2. Units submitting the OPREP-3 report will provide the MAJCOM and the AFOC with the rule number and subject of the event/incident being reported. Providing the AFOC with the rule number allows preliminary checklist steps to be accomplished prior to the unit beginning the voice report. After completion of the voice BEELINE report, the AFOC will give the current time in Zulu as the reference time for the record-copy report and his/her initials.

3.6.1.3. For nuclear related reports (PINNACLE), intermediate command centers will be conferred if time permits and only if it does not cause a delay in immediately voicing these reports to the NMCC. If direct contact the NMCC is required use DSN 223-8196 for the Senior OPS Officer (primary) or DSN 227-6340 for the EA Cell (secondary).

3.6.1.4. Commanders may consider allowing command post controllers to voice the same information passed to him/her to the AFOC without delaying for a written final draft. Reading from a prepared record copy report to fulfill the voice report requirement will delay the report.

3.6.1.5. The first statement in the text of voice reports will state the time the command post was notified of the incident/event and the time the commander or designated alternate released the report for voice submission.

3.6.2. Record-copy Reports: IAW CJCSM 3150.03A the goal is to submit initial record-copy PINNACLE reports within 1 hour of the incident. IAW AFOC submit initial record-copy BEELINE reports within 1 hour of the associated voice report. Intermediate levels of command will immediately pass the report to subordinate or lateral commands that need the information.

3.6.2.1. Information requested by AFOC that is not available during the initial voice report will be provided (when the information becomes available) in either the record-copy INTIAL, FOLUP, or FINAL report.

3.6.2.2. OPREP-3 BEELINES & PINNACLES will no longer include statements such as: The commander has deemed the following reportable and Further reporting through xxx channels. When a unit submits a voice report, it is perceived the unit commander or delegated alternate has authorized the release of the information. When an event/incident is reported as an INITIAL or FOLLOW-UP, the AFOC will expect more information from the command post. When FINAL OPREP-3 reports are submitted, it is understood that other agencies (safety, security forces, OSI, etc.) may not be relieved from further reporting through their respective chain of command.

3.6.2.2.1. Record copy reports will also contain the time the command post was notified of the incident/event and the time the commander or designated alternate released the report.

3.6.2.3. Initial Class A Mishap record copy reports will be re-transmitted by the AFOC to all MAJCOM Command Centers when the report is received.

3.6.3. Rapid reporting is imperative. Do not delay an initial report for lack of information. Use followup reports to provide additional information when it becomes available. Due to the extremely time sensitive nature of the *PINNACLE NUCFLASH* report, transmit these voice reports no later than 5 minutes after learning of the event.

3.6.3.1. Initial reports must be timely, concise, and include enough information to allow addressees to fully understand the situation. Record copy reports must answer the following questions: who, what, when, where, why, and how. Continue reporting until these questions are answered.

3.6.4. Transmit OPREP-3 reports by the fastest means available consistent with security constraints: usually by nonsecure voice transmission, followed by a confirming record transmission. Transmit reports containing classified or special intelligence information with the proper security precautions. Include the flagword *JOPREP JIFFY* after the classification on all OPREP-3 messages.

3.6.5. Deleted.

3.6.6. The OPREP-3 PINNACLE NUCFLASH take precedence over all other OPREP-3 reports. Any actual OPREP-3 report takes precedence over all peacetime exercise communications.

3.6.7. Transmit during MINIMIZE.

3.6.8. Use the ESC C1 designator - Continue reporting, priority.

3.6.9. Include AFOC as an information addressee on all reports, including HOMELINEs, which are addressed to a theater CINC, or briefed to a theater CINC.

3.7. Report Format and Contents:

3.7.1. AFPAM 10-709 V1CD gives specific format information for OPREP-3 reporting. For the OPREP-3 BEELINE and HOMELINE reports, use the format contained AFPAM 10-709 V1CD, OPREP-3 PINNACLE Annex, with the flagwords BEELINE or HOMELINE and the letter "B" or "H" substituted for PINNACLE and P, where applicable.

3.7.2. The narrative section of each report must clearly convey the details of the incident. Use [Figure 3.1](#) to assist in gathering and reporting incident details.

3.8. Report Numbering . Number OPREP-3 reports consecutively for the calendar year beginning with 001. Subsequent reports for the same incident will add sequential letters to the basic report number (e.g., 002A, 002B). After the number 999, revert to 001 for the next report.

3.9. Exercise Reports. Number exercise reports independently of "real world" reports using the same OPREP-3 formats. Begin exercise reports with 001 at the start of each exercise. Indicate exercise name in the EXER set of each report.

3.10. Followup Reports:

3.10.1. Followup reports are essential to keep commanders informed of developing situations and to provide additional details as they are learned.

3.10.2. Record copy followup or final reports may contain information previously provided by one or more voice reports. Continue reporting as long as the situation merits. When the immediacy of the OPREP-3 system subsides commanders may use SITREP reporting to provide continuous information. Include a reference to applicable voice and record copy reports in each additional record report.

NOTE: Advise higher headquarters controllers by voice of the date-time-group of the record copy message as soon as it is available.

3.11. Use of Personnel Identification. Do not include the name or social security number (SSN) of individuals in OPREP-3 reports. Rather, provide broad categories (e.g., active duty, reserve, airman, noncommissioned (NCO), officer, dependent). If a report recipient requires names or SSN, request it as an addendum through separate channels.

3.12. Upgrading Reports. If later information indicates a higher-level report, upgrade it (e.g., *HOMELINE* to *BEELINE*). To do this, the reporting unit sends a brief followup report identifying the basic incident and referencing earlier reports. The headquarters primarily addressed on earlier reports will notify higher levels and provide hard-copy reports. Send all followup reports to the proper levels.

4.5. Submission Timing. Reports will be submitted daily or more frequently, if required, for the duration of the activity or operation. Unless specified otherwise by CINC directives, submit reports no later than 0200Z, reflecting data current as of 2359Z.

4.6. Submission Precedence. Submit reports via IMMEDIATE precedence with classification appropriate for the message content. Continue to report during MINIMIZE unless directed otherwise by the implementing authority. This message may be submitted by voice or Global Command Control System (GCCS) when record (i.e., Automated Digital Network (AUTODIN)) transmission is not available.

4.7. Specific Reporting Instructions. The SITREP is a narrative report. It keeps addressees informed and enables higher levels of command to prepare for potential effects of ongoing situations.

4.7.1. Duplicate reporting is not desired; however, information available in another Joint Reporting Structure (JRS) report will be referenced to ensure operational impacts are noted.

4.7.2. Any higher headquarters level in the reporting chain may direct additional reporting requirements. The Air Force Operations Group, in fulfilling the CSAF's Title 10 responsibilities, is authorized to request any necessary additional/amplifying information on past events, current operations, or planned actions. A quick response to requests for information from the AFOC, Air Force Crisis Action Team, or CSAF Presentation Division is required.

4.7.3. During peacetime military support to civil authorities operations and under hostile conditions such as terrorism, comply with the daily reporting instruction timeline described in the supported CINC's Execute Order. Include AFNSEP FT MCPHERSON GA// and HQ USAF WASHINGTON DC//XOO//AFOC// as addressees on the SITREP. At the end of military operations, submit a summary SITREP to AFNSEP 1283 Anderson Way SW, Ft McPherson, GA 30330-1095 and supported CINC/J3 via military postal system. The information contained in [Figure 4.1](#), should be included in the summary SITREP.

4.8. Report Content. Air Force SITREPs will evaluate significant factors relating primarily to readiness, mobilization personnel, and logistics. COMMUNICATIONS INSTRUCTIONS REPORTING VITAL INTELLIGENCE SIGHTINGS (CIRVIS)

5.1. Subject and Purpose. This report provides vital information to the security of the United States and Canada which, in the opinion of the observer, requires very urgent defensive action or investigation by the US and or Canadian Armed Forces.

5.2. Reference Materials. Joint Army, Navy, Air Force Publication (JANAP 146).

5.3. Submitted By. Any Air Force personnel.

5.4. Submitted To:

5.4.1. Airborne reports: US or Canadian military or civilian communications facility.

5.4.2. Post-landing reports: Commander in Chief, North American Aerospace Defense Command (NORAD), Cheyenne Mt, Colorado, or HQ Northern NORAD Region, North Bay, Ontario, Canada, whichever is more convenient. If landing outside Canadian or US territories, submit reports through the nearest US or Canadian military or diplomatic representative.

5.5. When Submitted. As soon as possible after the intelligence sighting.

5.6. How Submitted. Reports are normally UNCLASSIFIED but handled as For Official Use Only.

5.6.1. Use the most rapid means of transmission available. For airborne reports use the same procedures as for air traffic control. When pilots cannot establish contact with a ground station, make maximum effort to relay the report via other aircraft.

5.6.2. To avoid delays while airborne, repeat the word CIRVIS three times before the message to preempt all other communications (except distress and urgency). If this fails to clear the frequencies, use the International Urgency Signal "PAN" spoken three times. For the ground relay of airborne reports or post-landing reports, use FLASH precedence.

5.6.3. Transmit during MINIMIZE.

5.6.4. Use the ESC C1 designator- Continue reporting, priority.

5.7. Reporting Instructions:

5.7.1. Facilities receiving CIRVIS reports will rapidly process and forward them as prescribed by JANAP 146.

5.7.2. Report all unidentifiable, suspicious, or hostile traffic (land, aerospace, or seaborne) which, because of its nature, course, or actions, considered a threat to the security of the United States or Canada. Such reporting extends the early warning defense system for the United States and Canada. There are five types of CIRVIS reports:

5.7.2.1. Issue initial CIRVIS reports while airborne (or as warranted, upon landing).

5.7.2.2. Issue post-landing CIRVIS reports if airborne reports made.

5.7.2.3. Issue followup CIRVIS reports by anyone with additional information about an earlier report (refer to the initial report).

5.7.2.4. Issue cancellation CIRVIS reports once sightings are positively identified as friendly or determined it was erroneously reported.

5.7.2.5. Submit evaluation CIRVIS reports to each addressee of the above CIRVIS reports. Promptly submit evaluation reports to keep all interested parties fully informed.

5.7.3. Report the following specific sightings:

5.7.3.1. Hostile or unidentified aircraft which appears directed against the United States, Canada, or their forces.

5.7.3.2. Missiles.

5.7.3.3. Unidentified flying objects.

5.7.3.4. Hostile or unidentified military surface vessels or submarines.

5.7.3.5. Any other individual surface vessels, submarines, or aircraft of unconventional design engaged in suspicious activity, observed in an unusual location, or on a course which may threaten the United States, Canada, or their forces.

5.7.3.6. Any unexplained or unusual activity which may indicate a possible attack against or through Canada or the United States (includes the presence of any unidentified or suspicious ground parties in remote or sparsely populated areas, including the polar region).

5.7.3.7. Unlisted airfields, facilities, weather stations, or air navigation aids.

5.7.4. Make every effort to document sightings with as many photographs as possible. Send undeveloped film or prints and negatives, with a brief written report and other identifying information to the Director of Naval Intelligence, Department of the Navy, Washington, DC 20305. The Department of the Navy will process the film and return one copy of each print and a roll of new film to the individual.

5.7.5. Use **Figure 5.1** to gather and report specific sighting details.

Figure 5.1. Communications Instructions Reporting Vital Intelligence Sightings (CIRVIS).

Attachment 2**IC 97-1 TO AFMAN 10-206, OPERATIONAL REPORTING****SUMMARY OF REVISIONS**

Interim change (IC) 97-1 corrects a discrepancy in nuclear related PINNACLE reporting procedures between AFMAN 10-206 and CJCSI 3150.03, Joint Reporting Structure Event and Incident Reports.

3.6.1. Air Force units will submit voice reports to the appropriate command center via telephone conference. Normal conference procedures will be unit to MAJCOM to AFOC for BEELINE or Service-level reports (Bent Spear and Faded Giant). Additional conferees will be added as appropriate.

3.6.1.1. Nuclear related reports (PINNACLE) will be immediately voice reported to the NMCC. To contact the NMCC use DSN 851-3840 (primary) or DSN 227-6340 (secondary). Intermediate command centers will be conferenced if time permits and only if it does not cause a delay in the reporting to the NMCC.

Attachment 3

IC 99-1 TO AFMAN 10-206, OPERATIONAL REPORTS

SUMMARY OF REVISIONS

This change clarifies the reporting responsibilities of tenant and host wing commanders. It also clarifies the definition of commander for reporting purposes. It adds Crescent Edge Reporting procedures, adds weather reporting guidance, adds communications and computer events reporting, and updates the OPREP-3 reporting matrix. In addition it modifies chapters **Chapter 4**, **Chapter 6**, **Chapter 8**, **Chapter 9**, **Chapter 12**, and **Attachment 1** to reflect new AF guidance.

1.3.1. The commander, whose organization operates the command post, is responsible for timely and accurate reporting for all assigned or attached units, as well as units staging through their facilities or installations.

1.3.2. The commander, whose organization operates the installation command post, will ensure base units' reports are sent to their proper headquarters.

1.3.2.1. The commander, whose organization operates the installation command post, will develop procedures to ensure timely submission of tenant unit reports.

1.3.2.1.1. The installation command post will submit **ALL** OPREP-3 reports, including PINNACLE, BEELINE, and HOMELINE reports. This includes reports involving tenant unit assets.

1.3.2.1.2. Commanders of tenant units which belong to a MAJCOM other than the MAJCOM which owns the installation command post, have the sole authority to determine whether an incident or event occurring within their unit meets their MAJCOM's OPREP-3 HOMELINE reporting criteria. Tenant unit commanders have the sole responsibility for determining whether to report the incident. This decision will be made IAW their MAJCOMs guidance for HOMELINE reporting. The installation commander has final approval authority for all other OPREP-3 reports.

1.3.2.1.2.1. The tenant unit commander will, establish procedures to immediately notify the installation command post when an incident is determined to meet HOMELINE reporting criteria. The installation command post will submit the voice and record copy report. AMC units operating an AMCC will NOT submit OPREP-3 reports.

1.3.2.1.2.2. The installation command post will notify their commander of the situation and that an OPREP-3 HOMELINE report is being submitted in accordance with the tenant unit's reporting criteria.

1.3.2.1.3. The installation commander, or the commander, whose organization operates the installation command post, will not interfere with the tenant unit commander's decision to submit a HOMELINE report.

1.3.2.1.3.1. The installation commander, or commander whose organization owns the command post, will not alter the tenant unit commander's report, nor will the report be delayed for "consultations.

1.3.2.1.4. The installation commander will be notified of a tenant unit's HOMELINE report to comply with standard protocol and to ensure he or she is aware of events occurring on his or her installation.

1.3.2.1.5. Installation and tenant unit commanders will develop procedures to ensure OPREP-3 BEE-LINE and PINNACLE reports are fully coordinated with the installation commander, and other affected commanders, prior to submitting the report.

1.3.3. MAJCOM, direct reporting units (DRUs), United States Air Force Reserve (USAFR), and Air National Guard (ANG) personnel develop instructions to implement this manual to ensure timely, accurate information reporting.

1.3.4. The commanders of the air components of unified or specified commands, or JTFs, will include HQ USAF as an action addressee on Air Force operational reports.

1.4.2. **Emergency Status Codes (ESC).** These codes serve as a guide for reporting under emergency conditions. Each chapter reflects the ESC assigned to required report. AFI 37-124, *Management and Control of Information Reports' Requirements* (formerly AFR 4-38) prescribes ESC.

1.4.2.1. C1 - Continue reporting, priority. Submit data requirements assigned this category as pre-scribed or by any means to ensure arrival on the established due dates.

1.4.2.2. C2 - Continue reporting, normal. Submit data requirements in this category as prescribed, or as soon as possible after submission of priority reports.

1.4.2.3. C3 - Continue reporting, delayed. Submit data requirements as prescribed, but they may be delayed to allow the submission of higher precedence reports. Submit by non-electronic means if possible.

1.4.2.4. D - Discontinue reporting. Immediately discontinue reporting data requirements.

2.1.2. Classify reports containing:

2.1.2.1. Information on a combat loss or damage or discussing combat mission results a minimum of SECRET.

2.1.2.2. A complete inventory of nuclear weapons of one or more units a minimum of SECRET.

2.1.2.3. Information on the deployment of combat aircraft, units, or personnel according to the appropriate deployment plans.

2.1.2.4. Unit names and locations associated with a plan according to security instructions

3.3.1. PINNACLE (OPREP-3P) reports provide information to the National Command Authorities, National Military Command Center (NMCC), and appropriate commanders on any incident or event of national level interest which does not require notification using other OPREP-3 reports. This report is not restricted to operational information and covers a wide range of occurrences with actual or potential international repercussions or which could seriously change current operations. Consider an event or incident reportable if it:

3.3.1.1. Generates a higher level of military action

3.3.1.2. Causes a national reaction

3.3.1.3. Affects international relationships

3.3.1.4. Causes immediate widespread coverage in news media

3.3.1.5. Is clearly against the national interest

3.3.1.6. Affects current national policy

3.3.2. **PINNACLE NUCFLASH (OPREP-3PNF)** reports the actual or possible detonation of a nuclear weapon which risks the outbreak of nuclear war. This report has the highest precedence in the OPREP-3 reporting structure. Report any of the following:

- 3.3.2.1. Accidental, unauthorized, or unexplained nuclear detonation or possible detonation.
- 3.3.2.2. Accidental or unauthorized launch of a nuclear-armed or nuclear-capable missile in the direction of, or having the capability to reach another nuclear-capable country.
- 3.3.2.3. Unauthorized flight of, or deviation from, an approved flight plan by a nuclear armed or nuclear-capable aircraft with the capability to penetrate the airspace of another nuclear-capable country.
- 3.3.2.4. Detection of unidentified objects by a missile warning system or interference (experienced by such a system or related communications) that appears threatening and could create a risk of nuclear war.
- 3.3.4. **PINNACLE BROKEN ARROW (OPREP-3PBA)** reports an accidental event involving nuclear weapons or nuclear components but does not create the risk of nuclear war. Report the following
 - 3.3.4.1. Nuclear detonation
 - 3.3.4.2. Non-nuclear detonation or burning of a nuclear weapon
 - 3.3.4.3. Radioactive contamination
 - 3.3.4.4. Jettisoning of a nuclear weapon or nuclear component
 - 3.3.4.5. Public hazard, actual or implied
- 3.3.12. OPREP-3 CRESCENT EDGE (OPREP-3CE). Used to immediately notify NMCC, AFOC, or MAJCOMs via secure communications of significant activities involving Special Access Programs (SAPs) operating under the auspices of AFI 16-701. Affected unit command posts will submit voice reports by secure means directly to the appropriate level (i.e. AFOC for BEELINE reports) and back brief intermediate commands as appropriate.
 - 3.3.12.1. Subject and Purpose. The Crescent Edge Report allows units operating SAPs to use the operational reporting channel to advise their program managers of events or incidents that meet OPREP-3 reporting criteria. The Crescent Edge Report is the single reporting channel for all SAP units reporting incidents to higher headquarters. Crescent Edge Reports will be forwarded through command post channels to MAJCOM Command Centers, AFOC, and NMCC as required.
 - 3.3.12.2. Include the following information in the report: The time the unit initiated the report, the name, phone number, and office symbol of both the person initiating the report and the POC at higher headquarters.
 - 3.3.12.3. The unit with the SAP, not the command post, initiates crescent Edge reports. The initiating unit will notify the command post they have a report. The command post will assign a report number and send the report up the chain to the appropriate level. No other action is required by the command post.
 - 3.3.12.4. A Crescent Edge Report will be submitted when an authorized individual from the SAP unit determines an incident meets reporting criteria as established in **Table 3.1**. The reporting unit will determine the level the report will be submitted to.
 - 3.3.12.4.1. It is the unit's responsibility, not the command post or Wing Commander's, to determine the level of the report.
 - 3.3.12.4.2. The parent MAJCOM, AFOC, and NMCC (as appropriate) are the only addressees permitted on record Crescent Edge reports.

3.3.12.5. Command post controllers will submit voice and record copy reports. Controllers will use the format at FIGURE 3.7. The format includes only originator and personal notification requests. No program names or incident details will be included, and command post personnel will not press for details.

3.3.12.5.1. The Crescent Edge report is unclassified but voice notifications will be made using secure telephones. Record copy reports will be transmitted Encrypt for Transmission Only (EFTO) using FLASH or IMMEDIATE precedence.

3.4. The OPREP-3 Reports Matrix ([Table 3.1.](#)) is a quick reference guide to assist users in determining the type of report to submit. **The matrix provides broad guidance and is not all-inclusive.** Judgement on the part of local commanders is essential to proper reporting. Base the level of the report on whether or not the event or incident will attract national level interest (PINNACLE) or is only of interest to HQ USAF (BEELINE) or a MAJCOM (HOMELINE). Refer to [Figure 3.1.](#), [Figure 3.2.](#), [Figure 3.3.](#), [Figure 3.4.](#), and [Figure 3.5.](#) for additional guidance for report content

3.6.1.2. Initial Class A Mishap voice reports will be reported to ALL MAJCOM Command Centers when the report is received by the AFOC. When notified of a Class A Mishap the AFOC will initiate a MAJCOM Conference call. If all MAJCOMs Command Centers do not join the conference within one minute of initiation, the AFOC will cease efforts to bring the additional command centers into the conference and direct the reporting unit to proceed with the report. The AFOC will only make one attempt to convene the conference (i.e. the conference will not be terminated and reinitiated to get additional participants in the conference). The AFOC will back brief those command centers that did not join the conference after it completes all of its internal notifications.

3.6.3.1. Initial reports must be timely, concise, and include enough information to allow addressees to fully understand the situation. Record copy reports must answer the following questions: who, what, when, where, why, and how. Continue reporting until these questions are answered.

3.6.9. Include AFOC as an information addressee on all reports, including HOMELINEs, which are addressed to a theater CINC, or briefed to a theater CINC.

Attachment 4**IC 2000-1 TO AFMAN 10-206, OPERATIONAL REPORTING**

7 MARCH 2000

SUMMARY OF REVISIONS

This change adds the Air Force Operations Group's authority to request information from all Major Commands, Forward Operating Agencies, Direct Reporting Units, and all subordinate units.

4.7.2. Any higher headquarters level in the reporting chain may direct additional reporting requirements. The Air Force Operations Group, in fulfilling the CSAF's Title 10 responsibilities, is authorized to request any necessary additional/amplifying information on past events, current operations, or planned actions. A quick response to requests for information from the AFOC, Air Force Crisis Action Team, or CSAF Presentation Division is required.

IC 2001-1 TO AFMAN 10-206, OPERATIONAL REPORTING

8 JUNE 2001

SUMMARY OF REVISIONS

This interim change expedites the dissemination of important updates and new addresses to the field. Most updates in this IC are for **Chapter 3**, Event/Incident Reports (OPREP-3). Changes include clarifications to voice and hard-copy report timing criteria, updates to the Minimum Essential Addressee (MEA) listings, which add address information for Defense Message System (DMS), various updates to OPREP-3 rule criteria in **Table 3.1.**, and the addition of OPREP-3 WHITE PINNACLE reporting guidance. **Chapter 13**, TEMPEST RAPIID reporting has also been suspended. Reporting is covered in **Chapter 3, Table 3.1.**, under Rule 14E.

1.3.2.1.4. The installation commander will be notified of a tenant units OPREP-3 report to comply with standard protocol and to ensure he or she is aware of events/incidents occurring on or affecting his or her installation.

1.3.2.1.5. Installation and tenant unit commanders will develop procedures to ensure OPREP-3 reports are coordinated, without significantly delaying the report, with the installation commander, and other affected commanders, prior to submitting the report.

3.3.13. OPREP-3 WHITE PINNACLE (OPREP-3WP). OPREP-3WP is an unclassified exercise flagword used in exercise messages that contain simulated, time-critical information from operating forces to the NMCC. This exercise is used to measure the timeliness of the OPREP-3 PINNACLE report. The NMCC will promulgate recommended monthly WHITE PINNACLE requirements to unified commands. Unified commands will designate the units to receive the exercise message and select specific exercise start times. Specific guidance is governed by CJCSM 3150.03A (Joint Reporting Structure Event and Incident Reports (1 Nov 00)). This exercise involves only unified commands, units subordinate to unified commands, and the NMCC.

3.5. Command Responsibilities. Due to the time sensitivity of OPREP-3 information, report each event or incident as promptly and accurately as possible. If there is doubt, report the event or incident. Units at all levels will develop procedures to quickly obtain and report the key elements of an OPREP-3 report. Since installations normally host units assigned to a different MAJCOM, notification and coordination procedures between the units must be agreed upon. Commanders should ensure all agencies involved in the OPREP-3 process receive OPREP-3 training at least quarterly.

3.5.1. Command posts will thoroughly brief commanders on all event/incident reporting criteria for each event/incident that requires reporting IAW this manual. Realizing the commander or designated alternate has complete authority to release any report, the command post is responsible for providing all necessary information to commanders to facilitate an informed decision on the release of OPREP-3 reports within the time constraints established by this manual.

3.6. Report Submission. The lowest level of command having knowledge of an event or incident will submit the OPREP-3 report. When necessary the AFOC may request, through the MAJCOM, that a unit report an event/incident because that unit is the closest to where the event/incident occurred.

3.6.1. Initial Voice Reports: Air Force units will submit voice reports to the appropriate command center via telephone conference. OPREP-3 PINNACLE and BEELINE voice reports will be submitted using FLASH or IMMEDIATE precedence. The goal is to initiate initial voice reports within 15 minutes of an event or incident. Due to the extremely time sensitive nature of the PINNACLE NUCFLASH report, transmit these voice reports no later than 5 minutes after learning of the event. Voice reports are required on all initial, follow-up, and final OPREP-3 reports.

3.6.1.1. Normal conference procedures will be unit to MAJCOM to AFOC for BEELINE or Service-level reports (Bent Spear and Faded Giant). Because the audible quality of most patching systems degrade with every added conferee, the AFOC will patch the NMCC into the conference for PINNACLE reports. Additional conferees can be added as appropriate by MAJCOMs or lower echelons; however, when adding additional conferees ensure the AFOC is the last conferee added to the conference. MAJCOM command centers will screen HOMELINE reports for possible BEELINE criteria. The AFOC will screen BEELINE reports for possible PINNACLE criteria. When in doubt, consult with the AFOC.

3.6.1.2. Units submitting the OPREP-3 report will provide the MAJCOM and the AFOC with the rule number and subject of the event/incident being reported. Providing the AFOC with the rule number allows preliminary checklist steps to be accomplished prior to the unit beginning the voice report. After completion of the voice BEELINE report, the AFOC will give the current time in Zulu as the reference time for the record-copy report and his/her initials.

3.6.1.3. For nuclear related reports (PINNACLE), intermediate command centers will be conferenced if time permits and only if it does not cause a delay in immediately voicing these reports to the NMCC. If direct contact the NMCC is required use DSN 223-8196 for the Senior OPS Officer (primary) or DSN 227-6340 for the EA Cell (secondary).

3.6.2. Record-copy Reports: IAW CJCSM 3150.03A the goal is to submit initial record-copy PINNACLE reports within 1 hour of the incident. IAW AFOC submit initial record-copy BEELINE reports within 1 hour of the associated voice report. Intermediate levels of command will immediately pass the report to subordinate or lateral commands that need the information.

3.6.2.1. Information requested by AFOC that is not available during the initial voice report will be provided (when the information becomes available) in either the record-copy INTIAL, FOLUP, or FINAL report.

3.6.2.2. OPREP-3 BEELINES & PINNACLES will no longer include statements such as: The commander has deemed the following reportable and Further reporting through xxx channels. When a unit submits a voice report, it is perceived the unit commander or delegated alternate has authorized the release of the information. When an event/incident is reported as an INITIAL or FOLLOW-UP, the AFOC will expect more information from the command post. When FINAL OPREP-3 reports are submitted, it is understood that other agencies (safety, security forces, OSI, etc.) may not be relieved from further reporting through their respective chain of command.

3.6.2.3. Initial Class A Mishap record copy reports will be re-transmitted by the AFOC to all MAJCOM Command Centers when the report is received.

3.6.5. Deleted

3.6.6. The OPREP-3 PINNACLE NUCFLASH take precedence over all other OPREP-3 reports. Any actual OPREP-3 report takes precedence over all peacetime exercise communications.

3.7.1. AFPAM 10-709 V1CD gives specific format information for OPREP-3 reporting. For the OPREP-3 BEELINE and HOMELINE reports, use the format contained AFPAM 10-709 V1CD, OPREP-3 PINNACLE Annex, with the flagwords BEELINE or HOMELINE and the letter "B" or "H" substituted for PINNACLE and P, where applicable

Attachment 6**IC 2002-1 TO AFMAN10-206, OPERATIONAL REPORTING**

14 MAY 2002

SUMMARY OF REVISIONS

The updates in this IC are for **Chapter 3**, Event/Incident Reports (OPREP-3). Changes include the addition of Rule 14N (NEXRAD Outage), adding a requirement to establish host-tenant agreements for OPREP-3 reporting, the addition of four (4) new minimum essential addressees (MEAs), and MEA modifications for several rules.

1.3. Command Reporting Responsibilities. To identify and streamline host-tenant responsibilities, host units will establish host-tenant agreements that meet the needs of both organizations. Commanders, whose organization operates the command post (1C3s functioning as a C2 agency (including AMCCs)), are responsible for timely and accurate reporting for all assigned or attached units, as well as units staging through their command. The agreement will establish procedures to ensure the installation commander is made aware of all events/incidents occurring on or affecting his/her installation. Agreements must, as a minimum, adhere to the following stipulations.

1.3.1. Ensure established procedures do not delay the submission of the OPREP-3 report.

1.3.2. Outline specific OPREP-3 responsibilities of host and tenant command posts/units (including who will submit the reports), with emphasis on timely and accurate report submission. IAW the agreement, the commander who operates the command post submitting the report will have approval/release authority for all OPREP-3 reports.

1.3.3. If the installation has one or more tenant(s) but only one command post, that host unit will establish the agreement, and the command post will submit all OPREP-3 reports.

1.3.3.1. Tenant unit commanders assigned to a different MAJCOM than the host unit, have the sole responsibility to report an incident or event that meets OPREP-3 reporting criteria.

1.3.3.2. If the host command post submits OPREP-3s for the tenant, the host unit will not interfere with, alter, or delay the tenant unit's report.

1.3.4. Ensure OPREP-3 reports have all required addresses, including the host and tenant MAJCOM command centers, and affected units and MAJCOMs.

1.3.5. Provide copies of the agreement to the host and tenant MAJCOMs IAW MAJCOM procedures. MAJCOMs will maintain a current copy of the agreement on file.

1.3.6. MAJCOMs, direct reporting units (DRUs), field operating agencies (FOAs), Air Force Reserve Command (AFRC), and Air National Guard Readiness Center (ANGRC) personnel will develop instructions to ensure timely and accurate OPREP-3 reporting.

1.3.6.1. Geographically Separated Units (GSUs) that do not fit under any of the above criteria will comply with parent MAJCOM guidance IAW this manual.

1.3.7. Air component commanders of unified commands and/or JTFs will ensure compliance through their air component command centers and de-conflict with unified/JTF command directives.
